

Noncreditable Foods for Child Care Programs in the Child and Adult Care Food Program (CACFP)

This guidance applies to meals and snacks served to children in child care centers, family day care homes, emergency shelters, and at-risk afterschool care centers that participate in the U.S. Department of Agriculture's (USDA) CACFP. Foods served in reimbursable meals and snacks must meet the CACFP meal patterns. For information on the CACFP meal patterns and crediting foods for children, visit the Connecticut State Department of Education's (CSDE) [Meal Patterns for CACFP Child Care Programs](#) and [Crediting Foods in CACFP Child Care Programs](#) webpages.

Noncreditable foods are foods and beverages that cannot credit in the USDA's meal patterns for Child Nutrition Programs. They include foods and beverages in amounts too small to credit (i.e., less than the minimum creditable amount), and foods and beverages that do not belong to the meal pattern components. Examples include potato chips, pudding, ice cream, gelatin, cream cheese, bacon, condiments (e.g., syrup, jam, ketchup, mustard, mayonnaise, and butter), and water. The chart on page 2 lists additional examples of noncreditable foods for CACFP child care programs. This list is not all-inclusive.

CACFP facilities may serve noncreditable foods in addition to the meal components to add variety, help improve acceptability in the meal, and satisfy appetites. Some examples include maple syrup on pancakes, salad dressing on tossed greens, and condiments such as ketchup or mustard on sandwiches and other entrees.

To ensure that CACFP meals and snacks meet children's nutritional needs, the CSDE encourages CACFP facilities to use discretion when serving noncreditable foods. Noncreditable foods typically contain few nutrients and are higher in added sugars, saturated fats, and sodium. Menu planners should read labels, be aware of the ingredients in foods, and limit the frequency and amount of less nutritious choices.

The USDA's [CACFP Best Practices](#) recommends that CACFP menus avoid noncreditable foods that are sources of added sugars. Examples include sweet toppings (e.g., honey, jam, and syrup), mix-in ingredients sold with yogurt (e.g., honey, candy, and cookie pieces), and sugar-sweetened beverages (e.g., fruit drinks and sodas).

Noncreditable Foods for Child Care Programs in the CACFP

Note: CACFP funds cannot be used to purchase noncreditable foods, except for condiments served with creditable foods, and herbs and spices used to prepare and enhance the flavor of meals. For example, CACFP funds cannot be used to purchase grain-based desserts, gelatin, pudding, or canned cream soups.
